
CanonWasteInkAbsorberPIXMAiP4800resetsoftware REPACK

anyone please help me to solve. A: It is no problem. Just open the 3 folders inside C:\Program Files (x86)\Adobe\Adobe Photoshop CC 2018 if you want to backup all information on your computer and also

open all the folders.
Last but not the least,
always update your
software, it is a must.

Link to the update
page. Q: Confusion
regarding java coding

```
public class  
employeeCollection {  
    public static void  
    main(String[] args) {  
Employee[] eArray1 =  
    new Employee[2];  
    eArray1[0] = new  
Employee("John",  
"Smith"); eArray1[1]
```

```
        = new
        Employee("Paul",
"Franklin"); ArrayList
        eList = new
        ArrayList();
eList.add(eArray1[0]);
eList.add(eArray1[1]);
        for (Employee e :
                eList) {
System.out.println(e);
        } } } As per above
```

code, we have
initialized ArrayList
as an ArrayList of
employee objects and
then have added

values into that. Now,
why does for
(Employee e : eList) {
System.out.println(e);
} returns only two
times instead of four?

A: eArray1[0] = new
Employee("John",
"Smith"); eArray1[1]
= new
Employee("Paul",
"Franklin"); First, we
populate the array,
then we add to the list.
So, the array is no
longer being

populated when we iterate over it in the for loop. EDIT:
`ArrayList eList = new ArrayList();` Here, we are creating a List object for our ArrayList. Then, we do a deep copy of the array `eArray1` and add it to the list. The two objects are different. Thus, each object's iteration will print a different value.
