DATA - Quickload Database Update CD.7.19.2013 Summer Wine & Sweet Donuts I love all of these things that I just listed, so when I came across a fantastic list of Summer pastimes and activities, I figured it was time to join the party. This list was put together by the team at Brunch Mag. When I was an intern last summer, I spent a lot of time at the Brunch. Their website features a veritable catalogue of upcoming events, including popular summer "Happy Hours" and an ongoing series called "Takeover," where Brunch hosts take over restaurants around the city for a unique evening out. If any of those sound amazing, I would highly recommend checking them out. 2. Go to a full-on backyard barbecue where the food is better than you expect it to be: Have I said yet how much I love these donuts? They're simply fantastic - crispy, cool, and a little sweet (but not too sweet). The ones at the Brunch are only available at brunchtime, but that doesn't mean they're a "diet food"!Q: basic application security in java hi we new this java app security plz help us we want to give security but we don't know about how to do it A: I recommend the Securing Java applications documentation. The application security in Java is usually not a problem. The key is proper design and good coding. The trade-offs you make in the design should be guided by careful consideration of the problem you are trying to solve. Please take a look here for the best practices when securing a web application in Java. The answers to these questions may help you better understand the trade-offs you are making in a particular case. What should
